Very clear, characteristic tone.

A

Intonation: Ensemble pitch center Adjusts chord tones Melodic line Corrects flaws

Adjustments are being made which means your listening! Support ends of phrases.

A-

Balance/Blend: Presentation of musical roles Texture Between timbres Between winds/percussion

A few timbral decisions need to be made w/ ducts or two, etc. Sometimes instruments will pop out of texture.

A-

Precision: Pitch accuracy Articulation clarity Note shape Vertical alignment Pulse Subdivision Technique

Very accurate. Some minor mistakes not due to lack of preparation - probably nerves.

A

Basic Musicianship: Adherence to printed directions not addressed by previous captions

Have a good basic sense of what is happening musically. Soloists are good - now just believe you are.

A

Interpretive Musicianship: Choices of style, tempi, dynamic range and contrast, melodic inflection to produce composer's intent

Go for it! It seems a bit reserved - up and down contrasts. Think about contours, even more - what emotions do you want your listeners to feel?

B+

General Factors: Choice of appropriate literature Instrumentation+ Etiquette+ Appearance+

Great rep for the group. Very professional.
